## My Great Explorer Log Tips & Hints

Making your own Great Explorer Log Book is easy and fun!

Every time you go somewhere new, just write down what you hear and see. Remember to look up, down and all around!

Start out by choosing your Great Explorer Name. You can pretend to be a famous explorer like Marco Polo or David Douglas or Sir Francis Drake, just to name a few. Or you can just make up a name! I'll be Mr. Pish of the Great North Forest!

Write about what you enjoyed most - if it's the sound of the tall grass moving in the breeze or the sweet smell of wild raspberries! (Hey, that rhymed!)

You can write down the names of any new people you met or friends you made. Maybe you saw a cute little white dog with one ear up!

If you like, you can draw a map of where you went or a picture of something cool you saw.

You don't even have to go anywhere special - you can do this in your own back yard! There's lots to see there, too!

When you're finished making your notes, you can punch holes in the log sheet and put it in a note book to keep them all together!

You can also go to my Facebook page at [www.Facebook.com/MrPish](http://www.Facebook.com/MrPish) to tell me what cool things you hear and see. I hope to hear from you soon!

Happy exploring!

Your Pal, Mr. Pish
